CONTENTS

Standard covariant formulation for perfect-fluid dynamics. B. Carter and B. Gaffet *page* 1

Time-dependent response of floating ice to a steadily moving load. R. M. S. M. Schulkes and A. D. Sneyd 25

Excitation of instability waves in free shear layers. Part 1. Theory. D. W. Bechert 47

Excitation of instability waves in free shear layers. Part 2. Experiments. D. W. Bechert and B. Stahl 63

Waves in liquids with vapour bubbles. R. I. Nigmatulin, N. S. Khabeev and Zuong Ngok Hai 85

Parametrically excited, standing cross-waves. John Miles 119

Parametrically excited, progressive cross-waves. John Miles and Janet Becker 129

Note on Bragg scattering of water waves by parallel bars on the seabed. Chiang C. Mei, Tetsu Hara and Mamoun Naciri 147

Flow and stability of helium II between concentric cylinders. Russell J. Donnelly and Michelle M. LaMar 163

Simulation of particle dispersion in an axisymmetric jet. J. N. Chung and T. R. Troutt 199

Compressible laminar boundary-layer flows of a dusty gas over a semi-infinite flat plate. B. Y. Wang and I. I. Glass 223

An experimental investigation of the flow of non-Newtonian fluids between rotating disks. A. Sirivat, K. R. Rajagopal and A. Z. Szeri 243

Natural convection in vertical enclosures containing simultaneously fluid and porous layers. C. Beckermann, R. Viskanta and S. Ramadhyani 257

Hydrodynamic arrest of a flat body moving towards a parallel surface at arbitrary Reynolds number. C. J. Lawrence and S. Weinbaum 285

Unsteady lifting-line theory by the method of matched asymptotic expansions. P. Wilmott 303

Lagrangian moments and mass transport in Stokes waves. Part 2. Water of finite depth. M. S. Longuet-Higgins 321

Capillary–gravity waves produced by a heaving body. L. M. Hocking 337

The effect of dead zones on longitudinal dispersion in streams. Anton Purnama 351

Mechanisms for the generation of edge waves over a sloping beach. D. V. Evans 379

Contents

Propulsion of a foil moving in water waves. JOHN GRUE, ASBJØRN MO and ENOK PALM 393

Linear internal waves generated by density and velocity perturbations in a linearly stratified fluid. JAMES C. S. MENG and JAMES W. ROTTMAN 419

On the secondary instability of Taylor–Görtler vortices to Tollmien–Schlichting waves in fully developed flows. JAMES BENNETT and PHILIP HALL 445

Brownian diffusion in concentrated suspensions of interacting particles. J. M. RALLISON 471

Current effects on resonant reflection of surface water waves by sand bars. JAMES T. KIRBY 501

Localization of gravity waves on a channel with a random bottom. PIERRE DEVILLARD, FRANÇIOS DUNLOP and BERNARD SOUILLARD 521

Gravity waves on a rough bottom : experimental evidence of one-dimensional localization. MAX BELZONS, ELISABETH GUAZZELLI and OLIVIER PARODI 539

On perturbations of Jeffery–Hamel flow. W. H. H. BANKS, P. G. DRAZIN and M. B. ZATURSKA 559

Jeffery–Hamel boundary-layer flows over curved beds. P. M. EAGLES 583
